### History

Founded, funded and built in 1936 by local farmers and homeowners after being told by urban power companies that rural electricity was infeasible.

### Business model

A cooperative — a business philosophy of operating at the lowest possible cost for its members, who each share in the business's ownership. The operation is a private corporation that is structured as a member-owned, not-for-profit, where members have democratic control. The mission of the cooperative is to provide affordable, reliable, safe electricity and outstanding member service.
