

# STREAM MORE. SAVE MORE.

A guide to using your United Communications internet to stream TV, movies, sports and more.

# Find the right streaming device

More and more people are “cutting the cord” these days, meaning they are letting their traditional cable service go and using more convenient, less expensive streaming options. As your local provider, United Communications is pleased to provide a fiber fast internet connection that powers multiple entertainment options.

Streaming tv shows, movies, sports and more over your internet connection is a simple two-step process: find the streaming device that meets your budget and needs, and then subscribe to the streaming services that give you the entertainment, channels, tv shows and movies you enjoy.

Streaming devices are affordable and simple to use. This table provides a guide to the most popular streaming devices available (*see next page*).

Use our Blast router to offer Wi-Fi 6 throughout your home. Wi-Fi 6 is the next generation Wi-Fi technology and combines blazing-fast speeds with whole-home coverage to give you an unrivaled experience. If you need extended Wi-Fi to more remote areas, we offer the GigaMesh satellites to add coverage and performance.

**Price:** Prices vary  
**Best for:** Direct internet connection

## Smart TVs

Many Smart TVs these days, especially those that support 4K and HDR, will likely be internet enabled and have streaming apps available. However, if you don't have a smart TV, or you're looking for the best experience possible, a separate device might be just what you need.

**Price:** \$120  
**Best for:** Amazon Alexa owners, Amazon Prime subscribers

## Amazon Fire TV Cube

If you have a HDR-compatible TV and you want to use Alexa to its fullest extent, grab an Amazon Cube. Hook it up to your TV and enjoy 16 GB of storage. Plus, it's 4K capable right out of the box.

**Price:** \$50  
**Best for:** Amazon Prime subscribers, cord-cutters

## Amazon Fire TV Stick 4K

Much less expensive but still just as great is the Amazon Fire TV Stick.

It has less robust Alexa capabilities and no storage, but you'll have access to all the HDR/4K streaming functionality of the cube in a smaller, more affordable package.

**Price:** \$60  
**Best for:** Cord-cutters on a budget, new to streaming tech

## Roku® Streaming Stick® +

Roku® Streaming Stick® + is like Roku, but designed better and supports HDR and 4K.

This set hooks into your TV via a separate but included HDMI cable. You'll then have access to Netflix, Hulu, Amazon Prime and more.

**Price:** \$69  
**Best for:** Fans of Google products, hands-free

## Google Chromecast Ultra

Google's streaming plugs directly into your TV with no hassle.

Supporting HDR and 4K, you can access popular streaming services and Google's Play Store, which has many more apps and services to choose from.

**Price:** \$179  
**Best for:** Fans of Apple products, iPhone users

## Apple TV® 4K

Apple's popular Apple TV product now supports 4K and HDR. Plus, it also supports Dolby Atmos for a truly stellar sound experience.

You'll have access to all the big streaming services, certain on-demand channels, apps and the ability to control everything with your voice via Siri.

# Find the right streaming services

The most popular services—Netflix and Amazon Prime—provide great film and TV options, have fantastic original content and aren't too expensive but they do not carry Live and local content.

Live TV streaming services have a combination of live TV programming and On Demand content and are like traditional cable TV. Below is a glimpse of two Live Streaming TV options, Hulu and YouTube TV, that are available in middle Tennessee. We're also providing an option for an economical bundle of cable channels you could add to your Live TV subscription.

STREAMING SERVICE	YOUTUBETV	HULU WITH LIVE TV	PHILO
