

Tariff 5 Filing Alert Notice June 12, 2025

Based on the FCC's recently released public notice¹, the current universal service contribution factor of 36.6% is expected to decrease to 36.0%. We will decrease the Federal Universal Service Charge to 36.0% in a tariff revision to be filed on June 16, 2025.

For those companies using FUSC rate banding, the percentage associated with the MLB EUCL FUSC rate bands will change as shown below. Each company listed in Section 17.7(B) should review the filing on June 16th for its individual rate band assignment and associated MLB EUCL FUSC surcharge factor.

All companies listed in sections 17.7(A) and 17.7(B) of the tariff must implement this change in their systems. In addition, because this filing impacts billing for interstate access, all companies must plan for providing the appropriate customer notification and implementing billing system changes.
